

CURRICULUM VITAE

NAME – DEEP PODDER

Mobile: +91- 6289622872

Email Id: deeppodder57@gmail.com

LinkedIn: www.linkedin.com/in/deeppodder2005

GitHub: <https://github.com/unknown-spec10>

CAREER OBJECTIVE:

Passionate about coding and data science, I specialize in AI, machine learning, and developing innovative solutions to solve complex challenges. Seeking to contribute to cutting-edge projects and drive impactful results.

EDUCATIONAL QUALIFICATION:

Degree/Examination Name	Year Of Passing	Name of Institute	Percentage/Grade points (Till date)
Bachelor of Computer Application	2026	Institute of Engineering & Management	8.34
WBCHSE	2023	Sodpur High School	77.17%
WBBSE	2021	Sodpur High School	81.43%

INTERNSHIP / PROJECTS UNDERTAKEN

Twitter Sentiment Analysis

- Performed sentiment analysis on Twitter data using libraries like NumPy, pandas, and PyTorch.
- Leveraged BERT architecture with Bert Tokenizer and Bert for Sequence Classification for natural language processing tasks.
- Implemented optimizers AdamW and learning rate schedulers to fine-tune the model.

- Organized datasets using Tensor Dataset and handled data splits with Data Loader and random split.

RAG Application with Ollama and Streamlit

- Developed a Retrieval-Augmented Generation (RAG) application for answering queries based on large datasets.
 - Utilized open-source models like llama and integrated Ollama for retrieval capabilities.
- Designed an intuitive user interface using Streamlit for seamless interaction with the application

Stock Recommender using Agentic AI

- Developed a stock recommender system using Agentic AI.
- Utilized financial data from Phi Data.
- Leveraged Python, advanced AI algorithms, and machine learning techniques.
- Integrated real-time data retrieval, analysis, and recommendation generation.
- Enhanced the accuracy of stock predictions and provided actionable insights for investors.
- Aimed to improve investment strategies by providing personalized stock recommendations.

Skill Gap Analyzer for Employees using Agentic AI

- Currently building a skill gap analyser for employees in any profession using Agentic AI.
- Analyses employee skill sets and identifies gaps based on professional requirements.
- Utilizes AI algorithms and machine learning techniques for accurate skill gap assessment.
- Provides personalized recommendations for skill development and training programs.
- Aims to enhance employee performance and career growth by addressing skill deficiencies.

TECHNICAL SKILL SETS & CERTIFICATIONS

- **AI Skills:** Python, AI/ML, Generative AI, NLP
- **Programming Languages:** Python, C, C++, Java, Data Structures and Algorithms (DSA)
- **Azure DevOps for Beginners – LinkedIn, Issued Aug 2024**
- **Becoming an AI-First Product Leader – LinkedIn, Issued Dec 2023**
- **Introduction to Artificial Intelligence – LinkedIn, Issued Dec 2023**

AREA OF INTEREST

- **Area of Interest:** Coding, specifically in data science.
- **Hobbies:** Football enthusiast.

LANGUAGES KNOWN:

Language	Read	Speak	Write	Proficiency
English				Intermediate
Hindi			*	Proficient
Bengali				Proficient

PERSONAL DETAILS:

Nationality: Indian

Date of Birth: 22/1/2005

Permanent Address: Salt Lake, Sector – IV, Sukantanagar, Chingrighata, Kolkata - 700098

DECLARATION:

The information provided is true to the best of my knowledge.

Signature

Date: 06/02/2025

Place: Kolkata
